

testimonial

'I am very impressed at their level of fitting standards and their competence to make changes to the layout to accommodate site conditions without any fuss or extra charges. We are absolutely delighted with our new technology block and would recommend Klick Technology without hesitation.'

Anthony Sullivan - Premises Manager, Chislehurst and Sidcup Grammar School, Kent

Chislehurst and Sidcup Grammar School, Kent

Technology Block Furniture Installation
Including Textiles, Food Technology, Art,
D & T and Multi Materials Rooms

Value: £161k

Duration of works: 7 weeks

Project Details:-

- > Manufacture of furniture
- > Delivery and distribution of furniture on site
- > New furniture installed
- > Final connection of gas, water and electrics
- > Final clean

The brief was to co-ordinate the supply and installation of the total furniture package for the new technology block, a new build extension. The deadline was tight as all the rooms had to be completed in time for the official opening of the new block.

We were contracted directly by the school and worked closely with their Premises Manager, producing CAD drawings of all rooms and liaising with their Quantity Surveyor to finalise the requirements for all the fixed and loose furniture including stools and chairs.

The furniture was manufactured, delivered and distributed to the different rooms prior to installation by our fitters. We co-ordinated final connections of all the services and a full clean was carried out before final handover to the school.
