

testimonial

"I had a very clear vision about the look I wanted for my new Food Technology room and Klick's quality of furniture and installation exceeded my expectations. At all stages of the project from conception to completion their staff were very obliging and professional. I am delighted with the end result."

Lisa Wilbraham-Jones – Head of Technology, Windsor Park Middle School, Uttoxeter, Staffordshire

- > Pre-installation survey
- > Close liaison with M & E contractors
- > Manufacture of furniture
- > Supply of white goods
- > Delivery and distribution of furniture on site
- > Installation of all fitted furniture

The Head of Technology selected 16mm Black Craquele Trespa for the worksurfaces which co-ordinates well with the PVC hygienic splashback. The aim was to create the appearance of a contemporary domestic kitchen which the students could relate to.

The client sourced specific taps, to their specification which our team then fitted.

The layout was refined by our designers, moving the DDA area to make better use of the space. The DDA area features a mid height oven housing unit, a variable height hob and sink.

The room incorporates a well equipped demonstration unit. The client requested a camera to be fixed to the teacher's desk which projects the demonstration onto a screen to be viewed by the students.
